

HEALTH & WELLNESS

SQL QUERIES ON HEALTH & LIFESTYLE DATASET

PRESENTED BY: TEJAS PHALKE

- 
- This project focuses on analyzing a Health & Lifestyle dataset using SQL queries.
 - The dataset includes information about physical activity, dietary habits, sleep patterns, mental well-being, and medical history.
 - The goal is to derive meaningful insights that can support better health decisions and lifestyle improvements through structured query analysis.
- 

- **Basic Data View**

```
SELECT * FROM Health_Lifestyle  
LIMIT 10;
```

Purpose: Preview first 10 records to understand the data.

	ID	Age	Gender	Height_cm	Weight_kg	BMI	Daily_Steps	Calories_Intake
▶	1	56	Male	164	81	30.72	5134	1796
	2	69	Male	156	82	20.86	12803	1650
	3	46	Female	158	65	30.93	16408	1756
	4	32	Male	197	87	31.19	18420	2359
	5	60	Male	157	63	29.37	17351	2556
	6	25	Female	199	85	31.14	5131	3256
	7	78	Male	172	72	32.46	19532	2216
	8	38	Male	178	115	28.62	13057	3262
	9	56	Male	167	51	19.96	12349	2038
	10	75	Male	180	114	26.55	12406	2827

- **Average Daily Steps by Gender**

```
SELECT Gender, ROUND(AVG(Daily_Steps),2) AS Avg_Steps  
FROM Health_Lifestyle  
GROUP BY Gender;
```

Purpose: Identify physical activity trends between genders.

	Gender	Avg_Steps
▶	Male	10960.17
	Female	10450.45

- BMI and Heart Disease Correlation

```
SELECT Heart_Disease, ROUND(AVG(BMI),2) AS Avg_BMI  
FROM Health_Lifestyle  
GROUP BY Heart_Disease;
```

Purpose: Check if BMI influences heart disease.

	Heart_Disease	Avg_BMI
	No	26.75
	Yes	26.5

- **Sleep Patterns of Smokers vs Non-Smokers sql CopyEdit**

```
SELECT Smoker, AVG(Hours_of_Sleep) AS Avg_Sleep  
FROM Health_Lifestyle  
GROUP BY Smoker;
```

Purpose: Understand how smoking affects sleep.

	Smoker	Avg_Sleep
▶	No	6.889
	Yes	6.999

- **Alcohol and Heart Rate**

```
SELECT Alcohol_Consumption_per_Week,AVG(Heart_Rate) AS  
Avg_Heart_Rate  
FROM Health_Lifestyle  
GROUP BY Alcohol_Consumption_per_Week  
ORDER BY Alcohol_Consumption_per_Week;
```

Purpose: Analyze relationship between alcohol and heart rate.

Alcohol_Consumption_per_Week	Avg_Heart_Rate
0	79.8916
1	82.1429
2	87.0891
3	89.1019
4	84.0102
5	90.3107
6	84.3542
7	85.0421
8	81.3048
9	82.8868

Final Insights

- **Gender & Activity**

Males and females show different levels of physical activity—potential to tailor fitness programs by gender.

- **BMI & Heart Disease**

Higher average BMI observed in individuals with heart disease—emphasizes importance of weight management.

- **Sleep & Smoking**

Smokers tend to get less sleep than non-smokers—highlighting the negative impact of smoking on rest.

Final Insights

- **Alcohol & Heart Rate**

Increase in alcohol consumption shows a trend of elevated heart rate—critical for cardiovascular health.

- **Lifestyle Matters!**

Clear correlations found between daily habits and long-term health risks—data-driven lifestyle choices can lead to better health outcomes.

Thank You!
